

AMENDMENTS TO THE CLAIMS:

This listing of claims will replace all prior versions, and listings, of claims in the application:

LISTING OF CLAIMS:

Claims 1-39 (Canceled)

40. (Previously Presented) Method for stacking sheets of printing media, comprising the steps of:

- a) punching a hole in the sheets, sheet-by-sheet;
- b) collecting the sheets in a stack on a workpiece, sheet-by-sheet, said sheets each having a fold therein;
- c) registering the sheets on the workpiece, sheet-by-sheet, with the fold in each sheet; and
- d) unloading the stack of collected and registered sheets from the workpiece.

41. (Previously Presented) Method for stacking sheets of printing media, comprising the steps of:

- a) cutting out a notch in selected sheets, sheet-by-sheet;
- b) collecting the sheets in a stack on a workpiece, sheet-by-sheet, said sheets each having a fold therein;
- c) registering the sheets on the workpiece, sheet-by-sheet, with the fold in each sheet; and

d) unloading the stack of collected and registered sheets from the workpiece.

Claims 42-62 (Canceled)

Please add the following new claims:

63. (Currently Amended) The method of claim 40, wherein each sheet has a centerline, the fold is located on the centerline of each sheet, and each sheet is registered along its centerline by the workpiece to thereby register punch holes of each sheet to one another.

64. (Withdrawn) The method of claim 40, comprising:
folding the sheets, sheet-by-sheet prior to collecting of the sheets in the stack on the workpiece.

65. (Withdrawn) Method according to claim 40, comprising:
trimming the sheets, sheet-by-sheet, for booklets, each sheet having a width depending on the position of the sheet in the booklet.

66. (Withdrawn) Method according to claim 40, comprising:
stapling the sheets in the stack together to form saddle-stitched booklets.

67. (Withdrawn) Method according to claim 40, comprising:
folding the sheets more than once so that each sheet has a plurality of folds.

68. (Withdrawn) Method according to claim 40, comprising:
trimming the sheets, sheet-by-sheet, in accordance with a predetermined
schedule.

69. (Withdrawn) Method according to claim 40, comprising:
folding the sheets, sheet-by-sheet, so that selected sheets have a U-shape
after being folded.

70. (Withdrawn) Method according to claim 40, wherein the fold in each
sheet is produced by translating a fold roller back and forth across a fold blade over
which each sheet is positioned.

71. (Currently Amended) The method of claim 41, wherein each sheet has a
centerline, the fold is located on the centerline of each sheet, and each sheet is
registered along its centerline by the workpiece to thereby register punch holes of
each sheet to one another.

72. (Withdrawn) The method of claim 41, comprising:
folding the sheets, sheet-by-sheet prior to collecting of the sheets in the stack
on the workpiece.

73. (Withdrawn) Method according to claim 41, comprising:
trimming the sheets, sheet-by-sheet, for booklets, each sheet having a width depending on the position of the sheet in the booklet.

74. (Withdrawn) Method according to claim 41, comprising:
stapling the sheets in the stack together to form saddle-stitched booklets.

75. (Withdrawn) Method according to claim 41, comprising:
folding the sheets more than once so that each sheet has a plurality of folds.

76. (Withdrawn) Method according to claim 41, comprising:
trimming the sheets, sheet-by-sheet, in accordance with a predetermined schedule.

77. (Withdrawn) Method according to claim 41, comprising:
folding the sheets, sheet-by-sheet, so that selected sheets have a U-shape after being folded.

78. (Withdrawn) Method according to claim 41, wherein the fold in each sheet is produced by translating a fold roller back and forth across a fold blade over which each sheet is positioned.
